1:31 AM

(noun): The currency backed by humor based on the idea of buying and selling simply by signing your initials on a wirebound memopad.

Inventor: Julius the Jules

For Selling:

memopad as needed.
You ask for the amount of
signatures you require.
The buyer signs their
initials as many times as
you requested one line at
a time.
For buying:

Buy or use a wiredbound

Buy or use a wiredbound

amount of signatures they
require.
You sign your initials as
many times as the seller
requested one line at a
time.

memopad as needed.

The seller asks for the

bartering.

Make room for

Keep the amount of

Things to keep in mind

- request at a reasonable amount
- Supply and demand should be a factor as with any economic demands.
- Remember, this is a currency.
 This currency is
- meant to be a form of humor, but you are encouraged to use it for real transactions.
- transactions.

 Make this currency your own and expand on the Humosticals™

project.
